PROVEN vs TRUSTED

Dual-state, published honestly

WHAT IS PROVEN (execution)

Network: Midnight Preprod

14 / 14 circuits exercised

Latest state tx + block verified

Source: RECEIPTS.md (indexer GraphQL)

WHAT IS NOT YET (acceptance)

Provider acceptance 0 / 6

Operation acceptance 0 / 14

Stripe capture / PaymentIntents: not yet

No live-payment claim in this deck

We publish both. Execution ≠ acceptance.
